# Have you got what it takes?

08

By now you will have a pretty good idea of what Reece is about, what we do and the types of employment opportunities we can offer. But what are we looking for? We mentioned at the outset that we were looking for the right people. Well, we're looking for people who want to build a career rather than just 'get a job'. We're looking for people who are prepared to work hard and have a go. Someone with an entrepreneurial spirit. We're looking for people who are good with people. We value attitude over education and performance over duration.

We believe we have a very special culture that has been created and continues to thrive because of the right people. To help us preserve that culture we have identified a set of values that define how we want to work together and with our customers. These values also help us choose and reward the right people. These values form part of what we call The Reece Way.
