

Can you guess where Australia's best bathroom is located?

The search for Australia's best bathroom has come to a close for another year. Reece, Australia's leading name in bathrooms, is delighted to announce the winners of their annual Your Bathroom. Your Life™ Competition.

With a staggering number of entries, a bathroom in Forrest, ACT, has been declared the overall winner. Congratulations to Geraldine and Michael Papandrea, the owners of this remarkable bathroom.

We also congratulate the two monthly winners, Camille Leung from Stanmore, NSW, and Greg and Carolyn O'Brien from Flemington, VIC.

With an overwhelming number of beautiful and inspiring bathrooms entered in this year's competition, it really did reiterate just how much Australians love their bathrooms.

According to Belinda Geels, Reece Bathroom Marketing Manager, there were a number of prominent trends that really stood out this year.

Says Belinda, "integrating the bathroom in the bedroom was widely seen, as were bathrooms with a view – many people are designing their bathrooms around large open windows, which provide a beautiful view, whether it be out to the garden, over a pool or out to the countryside. It seems that the bathroom is now being used to extend the living areas in the home. Making the most of available space was still a key factor, with hidden cisterns and wall hung vanities and basins widely seen."

"Overall, the quality of bathrooms entered in the competition was very impressive and it was pleasing to see that Australians are as passionate about their bathrooms as ever."

The competition also reiterated just how much Australians like to keep up-to-date with the latest bathroom trends, with many of the entered bathrooms encapsulating the hottest trends. This includes wet room showers, use of colour, double basins and twin showerheads. The use of bathroom zoning was also prominent, with many entrants creating zones for specific uses, such as private toilet or bathing areas.

The winning bathrooms can be viewed at www.reece.com.au/enter.
