

Introducing AFA Exact; smart designer sinks

Reece, Australia's leading name in bathrooms, is excited to present AFA Exact, the latest range of designer sinks from AFA.

Known for its contemporary sinkware options, AFA's new Exact range personifies the brand's consummate quality and style.

AFA discovered that while many home owners prefer a square sink option in a modern home, the harsh 90 degree angles means that everyday waste can get trapped. The AFA Exact range offers a solution; square edges with a 15 degree radius in the corners, giving the sinks no place for unwanted residue to hide.

Other innovative features include the use of sound deadening pads to reduce sink noise and an anti condensation spray on the base so as to avoid the build up of mould in the kitchen surrounds.

Belinda Geels, Reece Bathroom Marketing Manager, said that "the AFA Exact sinks offer complete practicality while keeping the contemporary beauty that AFA products are renowned for."

As with all AFA ranges, the Exact range is pressed from high quality 304 grade stainless steel ensuring they are as durable as they are beautiful. There is also the option to have inset or undermount installation.

To view the complete AFA Exact range visit www.reece.com.au.
