memo

The ingredients for a happy kitchen

Memos are all about sharing the important stuff. Simple. Helpful. Honest. And that's what our products are all about. Just beautiful quality and clever little touches that bring joy to the simple moments in the kitchen. Like mixers so magical they turn themselves on for you and sinks so striking they'll make you want to do the dishes. Memo brings you products so unique, they have their own personalities.

BRIGHTER
THAN FRUIT
SALAD

We're bringing a splash of colour to the kitchen to make you smile.

TOUGHER
THAN
COCONUTS

Our sinks are incredibly durable so they'll look great for years to come.

A SIMPLE
RECIPE

Heaps of clever little touches to save you time every day.

THE RIGHT
MIXTURE

Add matching accessories guaranteed to make cooking prep easier.

MEET THE FAMILY

That's right, we love our products so much, we actually named them like our own kids.

They're all unique in their own way.

So after months of designing and refining please meet Sia, Zenna, Hugo and Harper.

HEY I'M

Sia

**I'm the sensible one.
Not as touchy as
the others.**

HI I'M

Zenna

**I'm the golden child.
Confident and
good looking.**

HOWDY I'M

Hugo

I'm the easy going one.
I'll just fit in with
whatever you're doing.

HELLO I'M

Harper

It's nice to make
your acquaintance.
I'm a lover of the
classics.

Sia

JUST LIKE MAGIC

Performing magic with the wave of a hand, Sia is the perfect kitchen assistant. The beautiful lines of this mixer hide intelligent built-in sensors that can activate with 100% hands-free operation. All this makes multitasking in the kitchen a breeze and creates a cleaner, germ-free environment.

In ancient Greece, the words for 'cook', 'butcher' and 'priest' were all derived from the word magic.

THAT'S
MIXED UP!

GIVE US A WAVE

Touch-free operation will
make Sia your new best
friend in the kitchen.

Sia

Sensor Taps

Combining elegant lines with touchless technology, the Sia sensor tap range improves convenience and hygiene in the kitchen.

Available in polished chrome, brushed chrome, brushed brass and matte black finishes
LED light indicates hands-free activation
Run time adjustable at installation – maximum of two minutes
Warm or cold water activation can be set at installation
Simple plug-n-play installation
Cold or tempered water in hands-free mode
Dual stage filters for water quality
Left and right hand versions available
Kidsafe cold pull feature
360° Swivel spout
WELS 4 Star, 6.5 litres per minute

The right one for you

SINKS MADE SIMPLE

Step 1 How many bowls do you need?

One Bowl

If space is at a premium or you'd just like to maximise your bench space, one bowl could be the ideal option.

Two Bowls

Suited to family homes with plenty of dishes and food prep, you can't beat a double sink.

1 3/4 Bowls

Big on practicality with similar functionality to a double bowl sink but with a smaller footprint.

Step 2 Need a drainer or tap hole?

Drainer

A drainer is handy for stacking wet dishes to dry after washing.

Tap Hole

If you want your mixer mounted in your sink, you'll need a tap hole built in. Alternatively, choose one without a tap hole if you want to mount your mixer into your benchtop or on the wall.

Step 3 Are you a lefty or a righty?

Think about your sink layout in relation to other appliances in your kitchen as well as your washing and drying process. Wash on the left and dry on the right, or the other way around?

Step 4 Undermount or inset?

Undermount

Inset

Most sinks are either designed to be undermount or inset into the benchtop. Memo sinks, on the other hand, can be installed either way for added versatility. This makes choosing the right one a little easier.

Step 5 What's the best fit?

Dimensions

You want a sink, that is not only proportional to your kitchen but also caters to all the items you need to wash, such as oven trays and large pots and pans.

Cabinet Size

It might go without saying but make sure the width of your sink bowls are within the internal dimensions of your cabinet underneath.

Think Deep

Deeper sinks allow you to wash larger dishes but will take up more internal cabinet space underneath. Decide which is more important to you.

Bananas are berries
but strawberries aren't.

LET THAT
SINK IN

Zenna

THE ATTRACTION OF COLOUR

Nature lures animals with colour, which is why bees are drawn to beautiful flowers. We do the same with our incredible metallic colours. What better way to make a sink desirable than glimmering gold? And if gold ain't your thing, Zenna also comes in striking stainless and smoking hot gunmetal.

DEEPER THINKING

Designed to handle
the largest pots and
dishes with ease.

Zenna Single Bowl

The Zenna Single Sink brings
you thoroughly modern design
in a compact footprint.

Available in stainless steel, gold or gunmetal finishes
Can be installed inset or undermount

Harper

EVERYONE LOVES THE CLASSICS

When you want to make something great, it helps to start with the right ingredients. Harper is born from this idea. We've taken classic design and mixed it with quality materials. We added a pinch of modern ingenuity and the result is wonderfully spectacular.

Black tea and green tea are the same plant. Green tea turns black when the picked leaves are exposed to air.

Handy Helpers

LET'S SUPERCHARGE YOUR SINK

Step 1 Choose your preferred accessories

Memo offers a range of cleverly designed accessories sized to work perfectly with our sink ranges. Along with looking great, they'll save you plenty of time in the kitchen when tackling those everyday tasks.

Mini Colanders

Ideal for cleaning and draining fruit and vegetables directly over the sink.

Large Chopping Boards

Transform your sink into a useful prep area when chopping and dicing.

Small Chopping Boards

Convert a portion of your sink area into a convenient food prep space.

Roller Mats

Our flexible roller mats can extend your workspace or be used as a drainer.

Wire Baskets

A wire basket with in-built cutlery holder keeps everything organised and helps dry the dishes.

Drainer Trays

These trays are a perfect removable drainer option for our single, 1 3/4 & double bowl sinks.

Step 2 Mix and match

Our modular range allows you to combine accessories that extend the functionality of your sink.

Small Sinks

Combine a colander and chopping board for a seamlessly integrated work area with Zenna and Hugo.

Large Sinks

Create a multifunctional space by adding a colander, chopping board and roller mat.

Step 3 Easy to clean plug holes

Keeping food scraps out of your plumbing is better for the environment and will protect your plumbing from blockages.

Basket Wastes

An easily removable basket waste for quickly cleaning up your sink.

Removable Scrap Waste Basket

Deep basket to trap food scraps with handle for easy removal.

Mini Colanders

Our mini colander range is available in 4 designer finishes that match our Zenna and Hugo sinks perfectly.

Memo Care Instructions

Harper fireclay sinks

Harper sinks are manufactured with high quality materials and tested to ensure performance and long life. Fireclay sinks are created by firing the clay at high temperatures so some visual distortion can occur. This is not a defect but can be seen to add to the natural beauty of the sink.

Cleaning

To keep your Harper sink in original condition, only clean with non-abrasive cleaners and a soft sponge.

Water Stains

Use a low concentration of vinegar to remove hard water stains. Rinse well after. Keeping the sink dry will avoid future water stains.

General Stains

Marks and stains caused by foods and liquids should be removed immediately with hot water and a gentle cleaning agent. Cleaners, such as Jif, can be used to remove tougher stains. For more stubborn stains, mix a water and detergent mixture in the sink overnight, scrub off any dirt and stains and rinse with water.

Note

Damage caused by any improper treatment is not covered by the product warranty – refer to Warranty Conditions for further information.

Light Marks

Metal cutlery and cooking utensils can leave marks on the surface. These can be removed by Bar Keeper's Friend or a similar cleaner.

Scratches

Fireclay is extremely durable and long lasting. However, if scratches and chips do occur, Cramer Repair Kit is recommended for minor damages to the sink.

Do Not Use

Fireclay sinks can withstand many chemical cleaning agents, however it can cause damage to the wastes and taps. Below is not advised.

- Steel wool, scourers or metal brush to sink.
- Harsh cleaners containing severe acidic or alkaline chemicals such as sodium hydroxide, sulfuric acid or hydrochloric acid.
- Toilet cleaners such as chlorinated cleansers or bleach of any type.

Zenna Nano Coated

Hugo Stainless

Zenna and Hugo Stainless Steel Sinks

Zenna and Hugo sinks are manufactured with high quality materials and tested to ensure performance and long life. Marks on stainless steel can occur over time from waterborne deposits clinging to the stainless steel surface. To maintain the original appearance of the stainless steel finish, it's important to do a regular clean with non-abrasive cleaners. In more aggressive environments, such as coastal locations, more frequent cleaning will be required.

Maintenance

Always keep the stainless steel surface clean and do not allow dirt or grime to remain on the surface for extended periods.

Brown Stains & Light Scratches

A 3M Scotch-Brite cleaning cloth can be used by carefully rubbing up and down following the steel grain direction – not across the grain or in a circular motion. Diluted dishwashing liquid on a 3M Scotch-brite can also be used to remove stubborn brown stains. Thoroughly rinse with clean water and let dry to ensure no potential rust particles are left on the surface.

Recommended Stainless Steel Cleaner & Repellent

We recommend Hillmark 'Steelkleen' to remove fingerprint smears, water spots, splatters and light brown staining. In addition, it will not affect the transparent film which repels new marks. It's available through Reece (Reece code 2029784).

Note

Damage caused by improper treatment is not covered by the product warranty. Refer to warranty conditions for further information.

Do Not Use

Do not use any of the following to clean stainless steel;

- Steel wool, scourers or a metal brush
- Scourers previously used on normal steel
- Harsh cleaners containing acidic or alkaline chemicals such as sodium hydroxide (drain cleaner) or hydrochloric acid.
- Toilet cleaners such as chlorinated cleansers or bleach of any time.
- Brick cleaners such as hydrochloric acid.
- Plastic scourers across the stainless steel grain.

Do Not Allow

Salt, salty food or citric fruit juices to dry on the stainless steel surface. Always rinse off with clean water.
