ENHANCED LIVING

**As Italy's leading tapware company,
Nobili is recognised for its bold
designs and uncompromising quality.**

Embracing the innovative attitude the country is famous for, we bring together new ideas and advanced robotic manufacturing to create bathroom solutions that combine aesthetic beauty, material excellence and eco-friendly design. Each Nobili piece is crafted as an expression of pure symmetry brought to life through advanced engineering.

Nobili is intelligent Italian design.

SUSTAINABILITY AT EVERY LEVEL

An environmentally conscious design philosophy drives Nobili's production processes. Our state-of-the-art, solar powered manufacturing site in Suno, Italy, focuses on ecologically sustainable production, reducing environmental impacts while manufacturing products capable of optimising the planet's resources. We champion green technologies, creating opportunities for consumers to save water and energy in the home.

MANUFACTURING

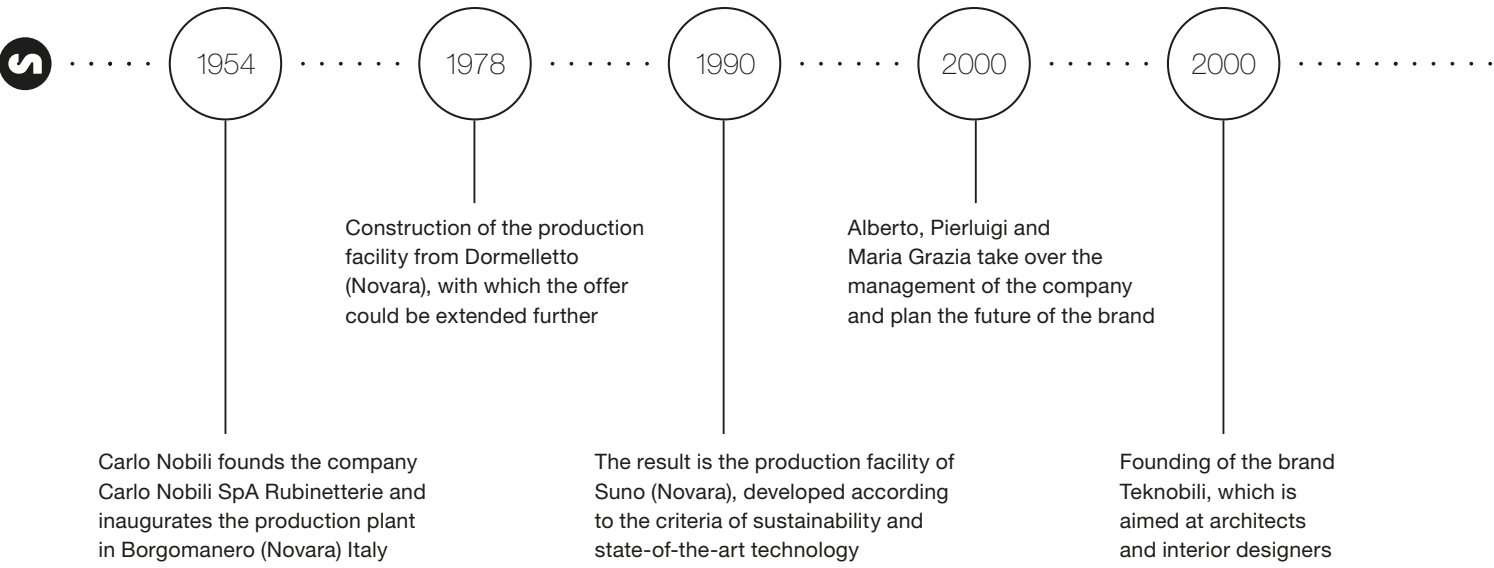

A fusion of technologies.

As one of Europe's most advanced production facilities, Nobili's Fusion Centre brings together leading technologies to produce tapware of uncompromising quality. This next generation site features one hundred thousand square metres of production area. Driven by advanced automation, it's capable of manufacturing more than two million products per year using its own clean energy source – nine thousand solar panels located on the roof.
