

SPARE PARTS REFERENCE

HOT WATER | HEATING | COOLING | COOKING | LPG

The Reece Spare Parts Reference for hot water, heating, cooling, cooking and LPG is a handy guide to your most frequently sought after gas and spare parts.

We have included an image of every product to make it easier than ever to find the particular spare part you're after. And once you've found what you're looking for, our **Rapid Delivery** service can get it to you where and when you need it - fast.

You can also use the reference online at www.reece.com.au when you don't have the reference handy.

Find your local reece branch

LOOKING FOR A QUICK AND EASY
WAY TO ORDER YOUR GAS SPARES?

GET ONLINE

www.reece.com.au/myaccount

With 24/7 access you can place orders anytime and then pick them up from your branch or we can deliver to site. And because it's our system and our products, it's quick, accurate and always confirmed for your peace of mind.

Here are just 3 other great features that make up My Account:

Turn Reece quotes into orders online

It's fast, easy and convenient. With 24/7 access you can place your order the night before and your products will be ready for pick up or delivered on site the next day.

QuickPay.

The fastest way to pay
your account online

- No additional logins required.
- Pay either overdue, current or your entire account balance.
- Choose between Visa, AMEX, Mastercard, or by Direct Debit.
- Store your card details securely for fast & easy future payments.

My Account Mobile

Optimised for your smart phone the site has all of your vital account information on hand - whether you're on site, on the road or out of town.

100 YEARS OF INNOVATION YOU'D BE HARD PRESSED TO BEAT THAT

Conex Bänninger >B< Press is a versatile press fitting system for use with hard, half hard or annealed copper tube providing a secure, life long, leak-proof joint. The fittings are quick to fit, providing a low cost installation solution. The slimline design gives an aesthetically pleasing finish with a secure, permanent joint that can't be tampered with.

Application / Medium	Comments	P (kPa)	T (°C) Max
Compressed air	Oil Concentration < 25mg/m ³	1600	70
	Oil Concentration > 25mg/m ³	1600	70
Natural Gas	The scope of AS5601 for all gas systems is restricted to 200kPa.	1000	70
Liquid gas Propane Butane Methane			70
Argon	For welding	1600	70
Forming gas, dry / welding inert gas	Ar+CO ₂ (Eg Cargon)	1600	70
Vacuum		-80	Ambient
