

# Twist. Click. Cut.

- Quick change holesaw in seconds
- Precision locking system
- No threading of arbor required
- Interchangeable with any hole saw

**NEW**

**Make the easy switch and get  
the Morse Fast Adapt Starter Pack.  
See inside for details.**

# Twist. Click. Cut. Fast Adapt QR – the quickest hole cutting system around.

**SPECIAL  
STARTER  
PACK**

Product Code: 7100305

**\$39.00 inc GST**

## Kit includes

- 1 x Fast Adapt Universal Arbor
- 2 x Adaptors to suit hole saws from 14mm to 30mm
- 3 x Adaptors to suit hole saws from 32mm to 152mm

- Precision locking system – For safety
- Compact design – For ease of use
- Interchangeable with any hole saw – Can use your current hole saws
- Quickly change hole saws in seconds – Saves you time

## The new Morse hole saw range.

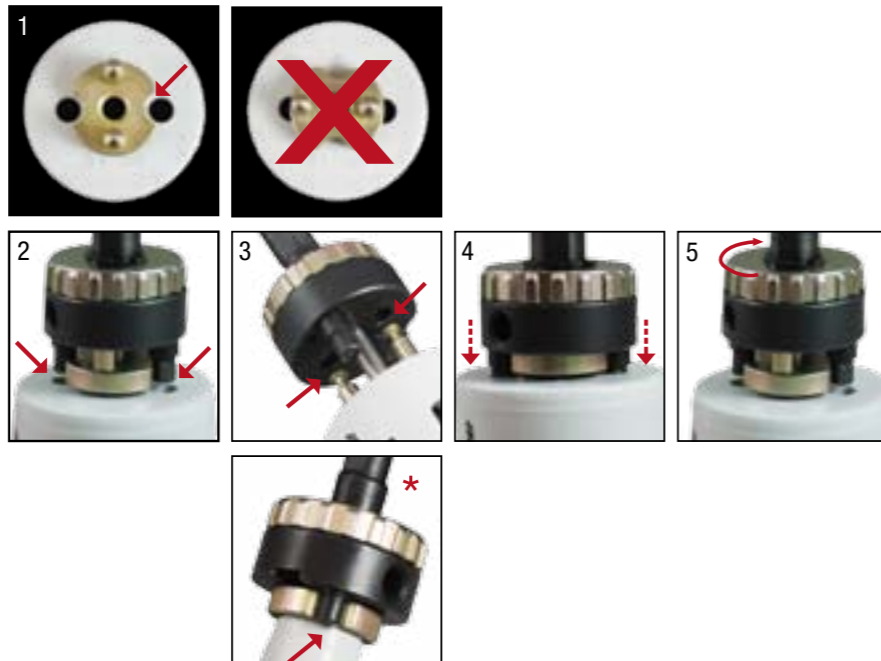

### Cutting Edge Performance.

Cementing their reputation for quality, Morse introduces its all new Advanced Edge bi-metal range of hole saws. Engineered with the strongest tooth profile in the market, Advanced Edge delivers unrivalled performance and durability for long life.

## How to Assemble

- 1 Align adapter notches with holes on hole saw cap when fastening together.
- 2 Align arbor pins with notches on adapter.
- 3 Insert arbor pins into holes on hole saw cap.
- 4 Push adapter pins into arbor to lock into place.
- 5 Twist clock wise to release.

\* **Note:** Step 3 not needed when using small hole saws with the 7100480 adapter.

## Features

- More teeth, deeper gullet in the cutting action increases material removal.
- New tooth form maximises penetration with a positive rake face.
- Positive rake face is fully radius for better material flow away from the cutting edge.
- Advanced setting process.
- Newly engineered manufacturing processes.
- Depth of hole saw suitable for professional users.
- Engineered with the strongest tooth profile available in the marketplace.

## Benefits

- Improved control of the cutting process with excellent chip clearing capacity.
- Increased impact resistance with optimised flank and secondary angles.
- Results in more efficient cutting.
- Balances cutting edge for maximum cutting performance.
- Increased control in higher torque applications and longer wear resistance.
- Ability to cut through 2x4 in one pass.
- Impact resistant while maintaining cutting penetration.

Metals

## Diamond tough.

Morse Diamond Grit makes your life easier when cutting through abrasive materials.

## DIAMONDGRIT™

### Long Lasting

Industrial Diamond Grit brazed to hardened and tempered alloy body.

### Fast Cutting

Fast and easy cutting of abrasive materials.

### Smooth Clean Cuts

Finish cut edges are smooth and clean.

### Self Guiding

Hollow core center keeps hole saw centered in cut.

### Easy Plug Removal

Slide slots allow for fast removal of material.

### Efficient Water Cooling

Spiral threads and slotted tip for water to cool hole saw.
